## CV Pictures Are Not Viruses – They Are Exosomes

Posted on 11th April 2020 by The Bernician

## CV Pictures Are Not Viruses – They Are Exosomes

The pictures you are being shown of the CV are really exosomes, which are naturally occurring and cannot be transferred from one

what exosomes are.

## Exosomes – The Body’s Defence To Environmental Toxins

**How would a fraudster, dead set on maximising the number of people with exosomes in their body, achieve such an aim?**

By scaring the living shit out of everybody and keeping them in a perpetual state of fearful stress, in a 5G prison without bars, where they must act as their own domestic jailers and accept that they no longer have any legal rights.

The truth fears no investigation, but lies always do.

Andrew Kaufman MD & guests discussing w...

## Blatant Organised Censorship

**So why are the demonstrable facts being censored on every platform?**

Never in my life have I seen so many heavyweight intellects stand

If as many lawyers and barristers had come out in support of the TGBMS Grounds, we would have stopped mortgage fraud long ago.

Please understand that these people are risking everything to tell you the truth about viruses, virology, vaccines and the dangers of wireless radiation, simply because it contradicts the official narrative and the mandatory vaccination agenda, so aggressively pursued by Big Pharma.

## 5G Does Not Cause Coronavirus

Nobody is saying 5G causes CV, but we are saying that all the evidence shows that wireless radiation is extremely harmful and that 5G is being installed, despite the appeal of hundreds of scientists that it would cause a pan-epidemic of the very same symptoms being experienced.

**Support this spontaneous independent public inquiry in any way you are able because when the intellectuals fall silent it will already be too late to avert catastrophe.**

The more who come forward and give their testimony now in the online public square, the more chance we have of waking up in a free country once again.

## Lest We Forget

In the 80's they told us that the HIV virus could only be contracted via the passing of blood or fluids between bodies.

Do they think any British Gen-X'er has forgotten what happened to Zammo in Grange Hill and how we were all told that one sniff of

...as Princess Diana famously showed, when she went to HIV wards and embraced those who were suffering there, without catching anything.

Now in 2020, they have told us that the current 'deadly virus' cannot be contracted via the passing of blood between bodies.

Both formed government policy, yet one position plainly contradicts the other. Viruses either can be caught via the blood or they can't.

## Urgent Questions Need Answering

Why are so many doctors, academics and critical thinkers all around the world being censored, when they are all speaking out about the impossibility of the official narrative?

Why is the empirically proven evidence presented by hundreds of scientists worldwide about the pan-epidemic of wireless radiation sickness from the continuing 5G roll-out being ignored?

Why are we being told that they are claiming that 5G is the cause of the virus, when they are claiming non-ionising radiation is the cause of the symptoms that have been mistaken for a virus?

Why has the warning about these dangers made by the ex business chief of Vodafone UK been censored on every platform?

Why has the London Real David Icke interview on this very subject been censored and caused a further clampdown on free speech, despite getting millions of views?

*Because it's a Vax-Trap baby and we've being CONNED!!*
